For many reasons, i can't capture a work video.

But with this tutorial, hope you guys can start *improving* your level :D

- Remember the difference between 6 and G

- With the "reCaptcha host", we could type only one word which were bold and uncertain

("cornsy" is good enough)

(Specifically, Don't type "33-31" or "3331" like that)

(or with type of captcha which have a white background and a white forecolor. Sorry, I don't have any examples for that :D)
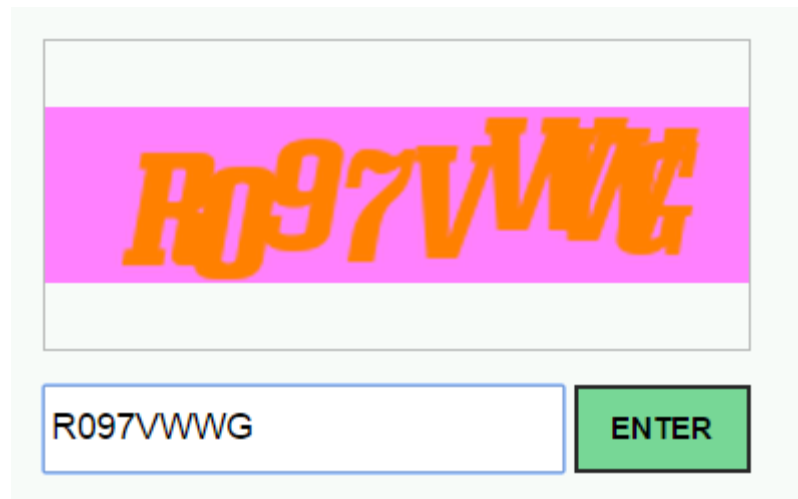

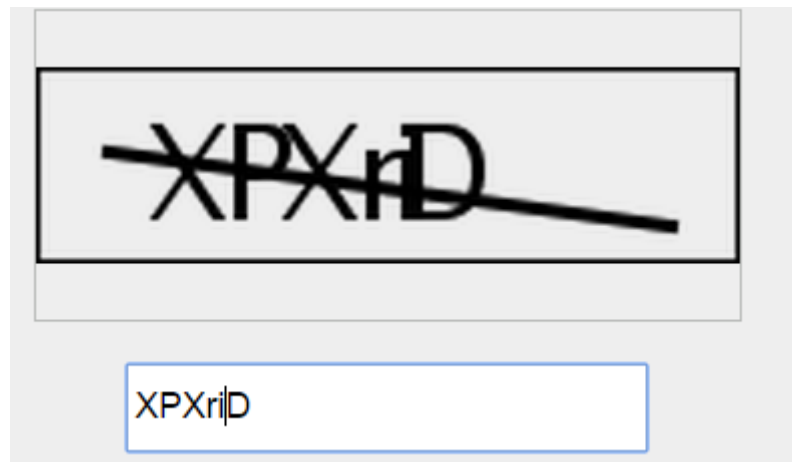

- Always 4 characters and UPPERCASE

B12L   ENTER

QFAT   ENTER

5CG2   ENTER

- UPPERCASE and WITHOUT number

XXNPAE   ENTER

- Always have 1 (and ONLY 1) number in this

VDU0   ENTER

XS6XA   ENTER

- A short distance between two characters…

- And finnally! This type of captcha is very important to improve your level!
That's Exactly the most common mistakes people made :))

(I don't want to explain this. Try yourself :D)
